Subchapter B—Meat Inspection Regulations

AMENDMENTS TO REGULATIONS RELATING TO MEAT INSPECTION

Pursuant to the authority conferred upon the Secretary of Agriculture by the act of Congress, approved March 4, 1907 as amended and extended (21 U.S.C. and Supp. IV, 71-91, 96); the regulations in Subchapter B, Chapter II, Title 9, Code of Federal Regulations, as amended, 10 F.R. 3316, are hereby further amended as follows:

PART 251—DEFINITIONS

Section 251.1, paragraphs (d), (e), (f), (o), and (q) are amended to read:

(d) *Production and Marketing Administration.* The Production and Marketing Administration of the U. S. Department of Agriculture.

(e) *Administrator.* The Administrator of the Production and Marketing Administration.

(f) *Division.* The Meat Inspection Division of the Livestock Branch, Production and Marketing Administration.

(o) *"U. S. retained."* The carcass, viscera, part of carcass, meat, meat by-product, meat food product, or other article so marked or identified is held for further examination by an inspector to determine its disposal.

(q) *"U. S. condemned."* The animal so marked has been inspected and found to be in a dying condition, or to be affected with any other condition or disease that would require condemnation of its carcass.

PART 256—ASSIGNMENT OF DIVISION EMPLOYEES

Section 256.3 is amended to read:

§ 256.3 *Badge as identification of inspectors.* Each division employee will be furnished with a numbered official badge, which he shall not allow to leave his possession, and which he shall wear in such manner and at such times as the chief of the division may prescribe. This badge shall be sufficient identification to entitle him to admittance at all regular entrances and to all parts of the establishment and premises to which he is assigned.

PART 257—FACILITIES FOR INSPECTION

Section 257.6 is amended to read:

§ 257.6 *Inspectors to furnish implements and maintain hands and implements in sanitary condition.* Inspectors shall furnish their own work clothing and implements, such as knives, steels, flashlights, and triers, for conducting inspection and shall cleanse their hands and implements as prescribed by § 258.8 (c) of this subchapter.

PART 258—SANITATION

1. Section 258.3 (d) is amended to read:

(d) The water supply shall be ample, clean, and potable, with adequate facilities for its distribution in the plant and its protection against contamination and pollution. Every establishment shall make known, and whenever required, shall afford opportunity for inspection of, the source of its water supply, the storage facilities, and the distribution system. Equipment using potable water shall be so installed as to prevent back-siphonage into the potable water system. Non-potable water is permitted only in those parts of official establishments where no edible product is handled or prepared, and then only for limited purposes such as on ammonia condensers not connected with the potable water supply, in vapor lines serving inedible product rendering tanks, in connection with equipment used for hashing and washing inedible products preparatory to tanking, and in sewer lines to move along heavy sewage. Non-potable water is not permitted for washing floors, areas, or equipment involved in trucking materials to and from edible products departments, nor is it permitted in hog scalding vats, dehairing machines, vapor lines serving edible product rendering equipment, or for clean-up of shackling pens, bleeding areas, or runways within the slaughtering department. In all cases, non-potable water lines shall be clearly identified and shall not be cross-connected with the potable water supply unless this is necessary for adequate fire protection and such connection is of a type with an adequate break to assure against accidental contamination, and is approved by local authorities and by the chief of the division.

2. Section 258.8 (c) is amended to read:

(c) Butchers and others who dress or handle diseased carcasses or parts shall, before handling or dressing other carcasses or parts, cleanse their hands with

liquid soap and hot water, and rinse them in clean water. Implements used in dressing diseased carcasses shall be thoroughly cleansed in boiling water, or in a prescribed disinfectant followed by rinsing in clean water. The employees of the establishment who handle any product shall keep their hands clean, and in all cases after visiting the toilet rooms or urinals shall wash their hands before handling any product or implements used in the preparation of product.

PART 259—ANTE-MORTEM INSPECTION

1. Section 259.2 (a) is amended to read:

(a) Any animal which, on ante-mortem inspection, does not plainly show, but is suspected of being affected with, any disease or condition that, under this subchapter, may cause condemnation of the carcass on post-mortem inspection, and any animal which shows, on ante-mortem inspection, any disease or condition that, under this subchapter, would cause condemnation of only part of the carcass on post-mortem inspection, shall be so marked as to retain its identity as a suspect until final post-mortem inspection, when the carcass shall be marked and disposed of as provided elsewhere in this subchapter, or until disposed of as otherwise provided for in this part.

2. Section 259.3 is amended by adding paragraph (d):

(d) Any animal found in a comatose or semi-comatose condition or affected with any condition not otherwise covered in this part, which would not warrant release of the animal for slaughter for food shall be marked "U. S. condemned" and disposed of in accordance with § 259.16 except that such animal may be set apart and held for further observation or treatment under Division or other responsible official supervision.

3. Section 259.16 is amended to read:

§ 259.16 *Disposition of condemned animals.* Except as otherwise provided in this part, animals marked "U. S. condemned" shall be killed by the official establishment, if not already dead, and shall not be taken into an establishment to be slaughtered or dressed; nor shall they be conveyed into any department of the establishment used for edible products; but they shall be disposed of and tanked in the manner provided for condemned carcasses in Part 264 of this subchapter. The "U. S. condemned" tag shall not be removed from, but shall remain on, the carcass until it goes into the tank at which time it may be removed by a division employee only. The number of such tag shall be reported to the inspector in charge by the inspector who affixed it, and also by the inspector who supervised the tanking of the carcass. Any animal condemned on account of hog cholera, swine erysipelas, vesicular exanthema, vesicular stomatitis, railroad sickness, parturient paresis, anasarca, or inflammatory condition including pneumonia, enteritis, and peritonitis, may be set apart and held for treatment under division or other responsible official supervision. The "U. S. condemned" tag will be removed by a

division employee either when the animal is released to a responsible official for treatment, or following treatment under division supervision if the animal is found to be free from disease. When an animal under the provisions of these regulations is to be released for a purpose other than slaughter, the official establishment or the owner of the animal shall first obtain permission for the movement of such animal from the local, state, or Federal livestock sanitary official having jurisdiction.

4. Part 259 is amended by adding the following section:

§ 259.18 *Vesicular diseases.* (a) Immediate notification shall be given to the local state and Federal livestock sanitary officials having jurisdiction when an animal is found to be affected with a vesicular disease.

(b) No animal under quarantine by state or Federal livestock sanitary officials on account of a vesicular disease will be given ante-mortem inspection.

(c) If no quarantine is invoked, or if a quarantine is invoked and later lifted, ante-mortem inspection shall be as follows:

(1) Any animal affected with vesicular exanthema or vesicular stomatitis in the acute stages, as evidenced by acute and active lesions or an elevated temperature, shall be marked "U. S. condemned" and disposed of in accordance with § 259.16.

(2) Any animal affected with vesicular exanthema, or vesicular stomatitis, but which has recovered to the extent that the lesions are in process of healing, the temperature is within normal range, and the animal shows a return to normal appetite and activity, shall be marked "U. S. suspect" and disposed of in accordance with § 259.2, except that if desired, such animal may be set apart and held under division or other responsible official supervision for treatment. If the animal is set aside for treatment, the "U. S. suspect" tag will be removed by a division employee, either when the animal is released for treatment to a responsible official, or, following treatment while under the custody of a division employee if the animal is found to be free from disease. Such animal, found to be free from disease, may be released for slaughter or for purposes other than slaughter, provided that in the latter instance, the official establishment or the owner of the animal shall first obtain permission from the local state or Federal livestock sanitary official having jurisdiction of the movement of such animal.

PART 260—POST-MORTEM INSPECTION

Section 260.10 is amended to read:

§ 260.10 *Carcasses with skin or hide on; cleaning before evisceration; removal of larvae of oestrus bovis.* When a carcass is to be dressed with the skin or hide left on, the skin or hide shall be thoroughly washed and cleaned before any incision is made for the purpose of removing any part thereof or evisceration, except that where calves are slaughtered by the kosher method, the heads shall be removed from the carcasses before washing of the carcasses. The skin shall

be removed at the time of post-mortem inspection from any calf carcass infested with the larvae of the "ox-warble" fly (*hypoderma lineata* and *hypoderma bovis*).

PART 261—DISPOSAL OF DISEASED CARCASSES AND PARTS

1. Section 261.24, Paragraphs (c) and (g) are amended to read:

(c) *Final inspection of retained carcasses.* The external and internal muscles of mastication, the heart, and the muscular portion of the diaphragm including its pillars, should be carefully and thoroughly sliced to insure the finding of all cysts. Prior to the inspection of the diaphragm its peritoneum shall be removed. The tongue shall be carefully inspected by palpation, and if the presence of cysts in the muscles of this organ is suspected, the tongue shall be thoroughly sliced and all parts closely examined for cysts. In addition to the foregoing, the muscles of the oesophagus, the exposed muscles, and cut muscular surfaces of the split carcass shall be examined. Incisions may be made to expose additional surfaces for examination, but unnecessary mutilation of carcasses which may be passed shall be avoided.

(g) The edible viscera, (except the lungs, fat, muscles of the oesophagus, and heart, which shall take the same disposition as the carcasses), of carcasses passed for food or for refrigeration under the provisions of paragraph (f) of this section may be passed for food without refrigerating or heating, provided they are found to be free from infestation upon final inspection. The intestines, weasands, and bladders from beef carcasses affected with *cysticercus bovis*, which have been passed for food or for refrigeration, may be used for casings after they have been subjected to the usual methods of preparation and may be passed for such purpose upon completion of the final inspection.

2. Part 261 is amended by adding the following section:

§ 261.34 *Vesicular exanthema and vesicular stomatitis.* (a) Any carcass affected with vesicular exanthema or vesicular stomatitis shall be condemned if the condition is acute or if the extent of the condition is such that it affects the entire carcass or there is evidence of absorption or secondary change.

(b) Any carcass affected with vesicular exanthema or vesicular stomatitis to a lesser extent than in paragraph (a) of this section may be passed after removal and condemnation of affected parts, if the carcass is otherwise in good condition.

PART 262—CARCASSES OF ANIMALS SLAUGHTERED WITHOUT ANTE-MORTEM INSPECTION

Section 262.1 is amended to read:

§ 262.1 *Carcasses of animals slaughtered without ante-mortem inspection.* No carcass of an animal slaughtered in the United States which has not had ante-mortem inspection by a division employee shall be brought into an official establishment, except that carcasses of cattle, sheep, swine, and goats,

slaughtered by a farmer on the farm, to which the head and all viscera other than the stomach, bladder, and intestines, are held by the natural attachments, may be received for inspection at official establishments where there is a veterinary meat inspector, upon the conditions prescribed in this section. After receipt in an official establishment, every such carcass shall be given a thorough post-mortem inspection. If, on inspection of any such carcass, there is found any lesion or condition indicating that the animal was sick or diseased, the carcass shall be condemned and disposed of in accordance with Part 264 of this subchapter. If on inspection the carcass is found to be free from disease and otherwise found healthful, wholesome, and fit for human food, it shall be marked with the inspection legend.

PART 265—RENDERING CARCASSES AND PARTS INTO LARD, RENDERED PORK FAT, AND TALLOW, AND OTHER COOKING

1. Section 265.1 is amended by striking out the portion of the first sentence preceding the colon and by substituting in lieu thereof the following:

§ 265.1 *Carcasses and parts passed for cooking, rendering into lard, rendered pork fat, or tallow.* Carcasses and parts passed for cooking may be rendered into lard or rendered pork fat (in accordance with subparagraphs (18) and (20), respectively, of § 267.8 (c)) of this subchapter or rendered into tallow, provided such rendering is done in the following manner:

2. Section 265.2 (a) is amended to read:

(a) Carcasses and parts passed for cooking, except as specified in § 261.20 of this subchapter, may be used for the preparation of such products as canned meat, sausage, cooked or boiled meat, meat loaves, and similar products, provided all parts of such carcasses and parts which are so used are heated to a temperature not lower than 170° F. for a period of not less than 30 minutes, either before being used in or during the preparation of the finished product.

PART 266—MARKING, BRANDING AND IDENTIFYING PRODUCTS

Section 266.13 (c) is amended to read:

(c) When cereal, vegetable starch, starchy vegetable flour, soya flour, dried milk, or dried skim milk is added to sausage within the limits prescribed under Part 268 of this subchapter, the product shall be marked with the name of each of such added ingredients, as for example, "cereal added", "potato flour added", "cereal and potato flour added", "soya flour added", "dried skim milk added", "cereal and dried skim milk added", etc., as the case may be. On sausage of the smaller varieties, the marking prescribed in this paragraph may be limited to links bearing the inspection legend.

PART 267—LABELING

1. Section 267.2 (b) (3) is amended to read:

(3) The name of the manufacturer or packer may appear without qualification

on the label or the container or product. When the name of the manufacturer or packer is not that under which inspection is granted at the establishment but is the name of a tenant operating in the establishment, full information identifying the tenant and the scope of his operations shall be furnished to the chief of division. When product is not prepared by the person whose name appears on the label, the name shall be qualified by a phrase which reveals the connection such person has with such product, as for example, "Prepared for * * *".

2. Section 267.4 (d) is amended to read:

(d) Stencils, labels, box dies, and brands may be used on shipping containers and on such immediate containers as tierces, barrels, drums, boxes, crates, and large-size fiberboard containers provided the markings are applicable to the product, are not false or deceptive, and are used with the approval of the inspector in charge. The inspection legend for use in combination with such markings shall be approved by the chief of division whether the legend is applied in the form illustrated in § 267.2 or by means of a domestic meat label.

3. Section 267.8 (c) (15), (16), (17), (25), (27), (28), (29), and (36) are amended to read:

(15) Such terms as "meat extract" or "extract of beef" without qualification shall not be used on labels in connection with products prepared from organs or parts of the carcass other than fresh meat. Extracts prepared from any parts of the carcass other than fresh meat shall not be labeled "meat extract" but may be properly labeled with the true name of the parts from which prepared. In the case of extract in fluid form, the word "fluid" shall also appear on the label, as, for example, "fluid extract of beef". Meat extract shall contain not more than 25 percent of moisture. Fluid extract of meat shall contain not more than 50 percent of moisture.

(16) When cereal, vegetable starch, starchy vegetable flour, soya flour, dried milk, or dried skim milk is added to sausage within the limits prescribed under Part 268 of this subchapter, there shall appear on the label in a prominent manner, contiguous to the name of the product the name of each such added ingredient, as, for example, "cereal added", "with cereal", "potato flour added", "cereal and potato flour added", "soya flour added", "dried skim milk added", "cereal and dried skim milk added", as the case may be.

(17) When any product is enclosed in a container along with a packing substance such as brine, vinegar, or agar jelly, a declaration of the packing substance shall be printed prominently on the label in connection with the name of product, as, for example, "Frankfurts packed in brine," "lamb tongue packed in vinegar," or "beef tongue packed in agar jelly," as the case may be. The statement of the quantity of contents shall represent the weight of the drained product when removed from the container to the exclusion of the packing substance. The packing substance shall

not be used in such a manner as will result in the container being so filled as to be misleading.

(25) No rendered edible animal fat or mixture of fats containing rendered edible animal fat shall contain added water, except that puff pastry shortening may contain not more than 10 percent of water, and oleomargarine may contain water within the limits prescribed under Part 278 of this subchapter.

(27) Product labeled "chili con carne" shall contain not less than 40% of meat computed on the weight of the fresh meat. Head meat, cheek meat, and heart meat exclusive of the heart cap may be used to the extent of 25% of the meat ingredient under specific declaration on the label. The mixture may contain not more than 8%, individually or collectively, of cereal or soya flour.

(28) Product labeled "chili con carne with beans" shall contain not less than 25% of meat computed on the weight of the fresh meat. Head meat, cheek meat, and heart meat exclusive of the heart cap may be used to the extent of 25% of the meat ingredient under specific declaration on the label.

(29) Product labeled "hash" shall contain not less than 35% of meat computed on the weight of the cooked and trimmed meat. The weight of the cooked meat used in this calculation shall not exceed 70% of the uncooked weight of the meat. Corned beef hash shall not be made with cereal, vegetable flour, dried skim milk, or similar substances.

(36) Liver sausage, liver loaf, liver paste, liver cheese, liver pudding, liver spread, and the like shall contain not less than 30% of liver computed on the weight of the fresh liver.

4. Section 267.8 (c) is amended by adding subparagraphs (37), (38), (39), (40), and (41):

(37) Product labeled "ham spread", "tongue spread", and the like, shall contain not less than 50% of the meat ingredient named (to the exclusion of other meat and meat by-product except fat), computed on the weight of the fresh meat.

(38) Deviled ham may contain added ham fat: *Provided*, That the total fat content shall not exceed 35% of the finished product. The moisture content of deviled ham, deviled tongue, and the like, shall not exceed that of the fresh unprocessed meat.

(39) Potted meat food product and deviled meat food product shall not contain cereal, vegetable flour, dried skim milk, and similar substances.

(40) Pork sausage and breakfast sausage, whether fresh, smoked, or canned, shall not be made with product which, in the aggregate for each lot, contains more than 50 percent trimmable fat; that is, fat which can be removed by thorough, practicable trimming and sorting.

(41) Cooked, cured, or pickled pigs feet, pigs knuckles, and the like, shall be labeled to show that the bones remain in the product, if such is the case. The designation "semi-boneless" shall not be

used if less than 50 percent of the total weight of bones has been removed.

PART 268—REINSPECTION AND PREPARATION OF PRODUCTS

1. Section 268.1 (b) is amended to read:

(b) Care shall be taken to see that product is in good condition when placed in freezers. If there is doubt as to the soundness of any frozen product, the inspector will require the defrosting and reinspection of a sufficient quantity thereof to determine its actual condition.

(1) Product, such as pork tenderloins, brains, sweetbreads, stews, chop suey, etc., shall not be packed in hermetically sealed metal or glass containers, unless subsequently heat processed or otherwise treated to preserve the product in a manner approved by the chief of division.

(2) Frozen product may be defrosted in water or pickle in a manner and with the use of facilities which are acceptable to the inspector in charge. Before such product is defrosted, a careful examination shall be made to determine its condition. If necessary, this examination shall include defrosting of representative samples by means other than in water or pickle.

2. Section 268.7 (m) and (o) are revoked, and paragraph (n) is relettered (m).

3. Section 268.7 (d), (g), and (i), are amended to read:

(d) With appropriate declaration, as provided in Part 267 of this subchapter, the following preservatives may be added, in the amounts indicated, to rendered animal fat or a combination of such fat and vegetable fat:

(1) Resin guaiac not to exceed $\frac{1}{10}$ of 1 percent; or

(2) Nordihydroguaiaretic acid not to exceed $\frac{1}{100}$ of 1 percent; or

(3) Tocopherols not to exceed $\frac{3}{100}$ of 1 percent. (A 30-percent concentration of tocopherols in vegetable oils shall be used when added as a preservative to products designated as "lard" or "rendered pork fat"); or

(4) Lecithin: *Provided*, That nothing in this paragraph shall prevent the use of this substance as an emulsifier as approved by the chief of division; or

(5) Citric acid not to exceed $\frac{1}{100}$ of 1 percent; or

(6) Citric acid not to exceed 5/1000 of 1 percent, or phosphoric acid not to exceed 5/1000 of 1 percent, in combination with not more than 1/100 of 1 percent of nordihydroguaiaretic acid.

(g) Under appropriate declaration as required in Parts 266 and 267 of this subchapter, sausage may contain not more than $3\frac{1}{2}$ percent, individually or collectively, of cereal, vegetable starch, starchy vegetable flour, soya flour, dried skim milk, or dried milk.

(i) Bicarbonate of soda, caustic soda, sodium carbonate, diatomaceous earth, fuller's earth, carbon, acetic acid, tannic acid, agents used exclusively as catalysts such as nickel preparations, and such other substances as may be approved by the chief of division, may be used in the preparation of rendered fats: *Provided*, That they are eliminated during the process of manufacturing.

4. Section 268.10 (c) (2) is amended to read:

(2) *Refrigerating*. At any stage of preparation and after preparatory chilling to a temperature of not above 40° F. or preparatory freezing, all parts of the muscle tissue of pork or product containing such tissue shall be subjected continuously to a temperature not higher than one of those specified in Table 1, the duration of such refrigeration at the specified temperature being dependent on the thickness of the meat or inside dimensions of the container.

TABLE 1—REQUIRED PERIOD OF FREEZING AT TEMPERATURE INDICATED

Temperature	Group 1	Group 2
°F.	Days	Days
5	20	30
-10	10	20
-20	6	12

Group 1 comprises product in separate pieces not exceeding 6 inches in thickness, or arranged on separate racks with the layers not exceeding 6 inches in depth, or stored in crates or boxes not exceeding 6 inches in depth, or stored as solidly frozen blocks not exceeding 6 inches in thickness.

Group 2 comprises product in pieces, layers, or within containers, the thickness of which exceeds 6 inches but not 27 inches, and product in containers including tierces, barrels, kegs, and cartons having a thickness not exceeding 27 inches.

The product undergoing such refrigeration or the containers thereof shall be so spaced while in the freezer as will insure a free circulation of air between the pieces of meat, layers, blocks, boxes, barrels, and tierces in order that the temperature of the meat throughout will be promptly reduced to not higher than 5° F., -10° F., or -20° F., as the case may be.

During the period of refrigeration the product or lot thereof shall be kept separate from other products and in the custody of the division. Rooms or compartments equipped for being made secure with division lock or seal shall be provided. The room or compartments containing product undergoing freezing shall be equipped with accurate thermometers placed at or above the highest level at which the product undergoing treatment is stored and away from refrigerating coils. After the prescribed freezing has been finished, the product shall be kept under close supervision of an inspector until it is prepared in finished form as one of the articles enumerated in paragraph (b) of this section or until it is transferred under division control to another establishment for preparation in finished form.

Pork which has been refrigerated as herein specified may be transferred in sealed railroad cars, sealed motortrucks, sealed wagons, or sealed closed containers to another official establishment at the same or another station for use in the preparation of meat and product of a kind customarily eaten without cooking by the consumer. The sealing of closed containers, such as boxes and

slack barrels, shall be effected by cording and affixing thereto division seals, and such containers as tierces and kegs shall be held in division custody by sealing with wax impressed with a division metal brand. Railroad cars, motortrucks, and wagons shall, when necessary, be sealed with division car seals. Properly sealed and marked closed containers may be shipped, with other meat in unsealed railroad cars, motortrucks, and wagons. Containers such as boxes, barrels, and tierces shall be plainly and conspicuously marked with a label or stencil furnished by the establishment, as follows: "Pork product ----- degrees F. ----- days' refrigeration", indicating the temperature at which the product was refrigerated and length of time so treated. For each consignment there shall be promptly issued and forwarded to the inspector in charge at destination a report on the form entitled "Notice of Unmarked Meats Shipped in Sealed Cars", appropriately modified to show the character of the containers and that the contents are "Pork product ----- degrees F. ----- days' refrigeration." A duplicate copy should be forwarded to the Washington office of the division. Cured boneless pork loins shall be subjected to prescribed treatment for destruction of trichinae prior to being shipped from the establishment where cured. Such cured boneless pork loins may then be shipped to other official establishments without sealing but they shall carry the mark of inspection.

5. Section 268.10 (c) (3) is amended by striking out the three sentences preceding the colon and by substituting in lieu thereof the following:

(3) *Curing*—(i) *Sausage*. Sausage may be stuffed in animal casings, hydrocellulose casings, or cloth bags. During any stage of treating the sausage for the destruction of live trichinae, except as provided in Method 5, these coverings shall not be coated with paraffin or like substance, nor shall any sausage be washed during any prescribed period of drying. In the preparation of sausage, one of the following methods may be used:

6. Section 268.10 (c) (3) is further amended by adding Method No. 5 under "Sausage" as follows:

Method No. 5. The meat shall be ground or chopped into pieces not exceeding three-fourths of an inch in diameter. A dry-curing mixture containing not less than 3½ pounds of salt to each hundredweight of the unstuffed sausage shall be thoroughly mixed with the ground or chopped meat. After being stuffed the sausage shall be held for not less than 65 days at a temperature not lower than 45° F. The coverings for sausage prepared according to this method may be coated at any stage of the preparation before or during the holding period with paraffin or other substance approved by the chief of division.

Section 268.11 (i) is amended by striking from the second and third sentences the words "and, in addition, where thermophilic bacteria might be present, for 10 days at about 130° F. When both

tests are used, they may run concurrently."

Section 268.15 is amended by inserting the word "pancreas" following "suprarenal" in paragraph (a) and by striking out the words "and pancreas" in paragraph (b).

8. Part 268 is amended by adding the following new section:

§ 268.16 *Tagging chemicals, preservatives, cereals, spices, etc., "U. S. retained."* When any chemical, preservative, cereal, spice, or other substance is presented for use in an official establishment, it shall be examined by a division employee, and if found to be unfit or otherwise unacceptable for the use intended, or if final decision regarding acceptance is deferred pending laboratory or other examination, the employee shall attach a "U. S. retained" tag to the substance or container thereof. The substance so tagged shall be kept separate from other substances as the inspector in charge may require, shall not be used until the tag is removed, and such removal shall be only by a division employee after a finding that the substance can be accepted, or, in the case of an unacceptable substance, when it is removed from the establishment.

PART 273—BRIBERY, COUNTERFEITING, ETC.

Section 273.1 is amended by adding the following paragraph:

(b) Division employees shall not procure product from an official establishment except through the retail market when such a market is maintained. In the absence of such retail market, division employees shall not procure product from an official establishment unless such establishment sells such product direct to its own employees. Division employees must obtain receipts for money paid to official establishments for product.

PART 274—EXPORT STAMPS AND CERTIFICATES

Section 274.4 (c) (6) is amended to read:

(6) No product from the carcasses of sheep or lambs showing any lesions of caseous lymphadenitis will be permitted export to England, Wales, Scotland, and Northern Ireland.

PART 277—IMPORTED PRODUCTS

Section 277.3 (e) is amended to read:

(e) No inedible grease, inedible tallow, or other rendered inedible fat possessing the physical characteristics of an edible product shall be admitted into the United States for industrial use unless it has been first denatured or otherwise destroyed for food purposes and the containers have been marked in the manner prescribed by § 266.18 of this subchapter.

This amendment shall be effective on and after July 11, 1946.

Done at Washington, D. C., this 11th day of July 1946. Witness my hand and

the seal of the Department of Agriculture.

§ 422.7 *Occupations involved in the operation of power-driven hoisting apparatus—(a) Finding and declaration of fact.* By virtue of and pursuant to the authority conferred by section 3 (1) of the Fair Labor Standards Act of 1938 and pursuant to the regulation prescribing the Procedure Governing Determinations of Hazardous Occupations;¹ an investi-

¹ Issued November 3, 1938, pursuant to authority conferred by section 3 (e) of the Fair Labor Standards Act of 1938, published in the FEDERAL REGISTER, Vol. 3, p. 2640, November 5, 1938, Procedure Governing Determinations of Hazardous Occupations.

gation having been conducted with respect to the hazards for minors between 16 and 18 years of age in employment in occupations involved in the operation of power-driven hoisting apparatus and a report of the investigation having been submitted to the Chief of the Children's Bureau; a finding and order relating to the employment of minors between 16 and 18 years of age in the said occupations having been proposed for final adoption by the Chief of the Children's Bureau upon the basis of the said report of investigation; a public hearing having been held with respect to the said proposed finding and order; all statements submitted in connection with the said hearing having been carefully considered and minor changes having been made in the proposed finding and order as a result of suggestions made at the hearing; and sufficient reason appearing therefor.

Now, Therefore, I, Katharine F. Lenroot, Chief of the Children's Bureau of the United States Department of Labor, hereby find and declare that the following occupations involved in the operation of power-driven hoisting apparatus are particularly hazardous for minors between 16 and 18 years of age:

(1) Work of operating an elevator, crane, derrick, hoist, or high-lift truck, except operating an unattended automatic operation passenger elevator or an electric or air-operated hoist not exceeding one ton capacity.

(2) Work which involves riding on a freight elevator. (Where employees are customarily transported to their work place at the beginning and end of scheduled work periods in a freight elevator operated by an assigned operator, such riding shall not be considered as work within the intent of this paragraph.)

(3) Work of assisting in the operation of a crane, derrick, or hoist performed by crane hookers, crane chasers, hookers-on, riggers, rigger helpers, and like occupations.

(b) *Definitions.* As used in this section:

(1) The term "elevator" shall mean any power-driven hoisting or lowering mechanism equipped with a car or platform which moves in guides in a substantially vertical direction. The term shall include both passenger and freight elevators (including portable elevators or tiering machines), but shall not include dumbwaiters.

(2) The term "crane" shall mean a power-driven machine for lifting and lowering a load and moving it horizontally, in which the hoisting mechanism is an integral part of the machine. The term shall include all types of cranes, such as cantilever gantry, crawler, gantry, hammerhead, ingot-pouring, jib, locomotive, motor-truck, overhead traveling, pillar jib, pintle, portal, semi-gantry, semi-portal, storage bridge, tower, walking jib, and wall cranes.

(3) The term "derrick" shall mean a power-driven apparatus consisting of a mast or equivalent members held at the top by guys or braces, with or without a boom, for use with an hoisting mechanism or operating ropes. The term shall include all types of derricks, such as A-frame, breast, Chicago boom, gin-pole, guy and stiff-leg derrick.

(4) The term "hoist" shall mean a power-driven apparatus for raising or lowering a load by the application of a pulling force that does not include a car or platform running in guides. The term shall include all types of hoists, such as base mounted electric, clevis suspension, hook suspension, monorail, overhead electric, simple drum, and trolley suspension hoists.

(5) The term "high-lift truck" shall mean a power-driven industrial type of truck used for lateral transportation that is equipped with a power-operated lifting device usually in the form of a fork or platform capable of tiering loaded pallets or skids one above the other. Instead of a fork or platform, the lifting device may consist of a ram, scoop, shovel, crane, revolving fork, or other attachments for handling specific loads. The term shall mean and include high-lift trucks known under such names as fork lifts, fork trucks, fork-lift trucks, tiering trucks, or stacking trucks, but shall not mean low-lift trucks or low-lift platform trucks that are designed for the transportation of but not the tiering of material.

(c) This section shall not justify non-compliance with any Federal or State law or municipal ordinance establishing a higher standard than the standard established herein.

(d) This section shall become effective on September 1, 1946, and shall be in force and effect until amended or repealed by order hereafter made and published by the Chief of the Children's Bureau.

Dated: July 11, 1946.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-944]

WILLIAM G. JACKSON

William G. Jackson is engaged in business as a building contractor at 2640 Flower Street, Walnut Park, California. On March 29, 1946, as a contractor for Etta Wamsher he began without authorization from the Civilian Production Administration the construction of a

combination residence and 14 unit motel structure located at 9720 Long Beach Boulevard, South Gate, California, at an estimated cost of \$14,000, which amount exceeded the \$1,000 limit permitted by Veterans Housing Program Order No. 1. William G. Jackson was aware of the restrictions on construction and his beginning and carrying on of such construction constituted a wilful violation of Veterans Housing Program Order No. 1. This violation has diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.944 *Suspension Order No. S-944.*

(a) For a period of three months from the effective date of this order no authorization shall be granted to William G. Jackson to do construction, nor shall he during such period apply or extend any preference ratings, regardless of the delivery date named in any purchase order to which such ratings may be applied or extended.

(b) William G. Jackson shall cancel immediately all preference ratings which he has applied or extended to orders which have not yet been filled, except that if he has extended a customer's rating to get an item for delivery without change in form to that customer (as distinct from replacing it in inventory), he need not cancel the rating, provided the item when received is promptly delivered to the customer whose rating was extended.

(c) All preference ratings, allotments and allocations presently outstanding in connection with orders for delivery of materials to William G. Jackson or placed prior to the termination date of this order are void and shall not be given any effect by suppliers of William G. Jackson or any other person. This does not apply to material already delivered or in transit for delivery to him on the effective date of this order.

(d) William G. Jackson shall refer to this order in any application or appeal which he may file with the Civilian Production Administration or the National Housing Administration for priorities assistance or for authorization to carry on construction.

(e) Nothing contained in this order shall be deemed to relieve William G. Jackson from any restriction, prohibition, or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

(f) The restrictions and prohibitions contained herein shall apply to William G. Jackson, his successors and assigns or persons acting on his behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

(g) This order shall take effect on the 11th day of July 1946.

Issued this 1st day of July 1946.

FEDERAL POWER COMMISSION.

[Docket No. G-742]

CANADIAN RIVER GAS CO.

NOTICE OF APPLICATION

JULY 10, 1946.

Notice is hereby given that on June 26, 1946, an application was filed with the Federal Power Commission by Canadian River Gas Company (Applicant), a Delaware corporation having its principal place of business in the State of Texas, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of certain additional facilities to its existing natural gas transmission pipe line system as hereinafter described.

The facilities for which a certificate is sought will be located at the site of Applicant's Bivins Compressor Station in

southern Moore County, Texas, and will constitute additions to, and integral parts of Applicant's existing main transmission pipe line system, and are the following:

1. One additional 600 H. P. gas engine driven natural gas compressor, including foundation, water circulating system, etc.

2. A solid adsorption type natural-gas dehydration plant (to replace the present liquid adsorption plant).

3. Revamp gasoline plant by installing: Three absorber columns 6' 0" diameter x 4' 0" long capable of handling 450# to 500# pressure; new gasoline still, together with necessary gasoline condensing and oil circulating system, including pumps, valves and fittings; necessary additions to present boiler house and pump house including one boiler and setting, one cooling tower unit, and other necessary pressure vessels, pipe valves, fittings and electrical wiring, etc., in connection with rearranging present equipment.

4. Install approximately 2000 feet of 24" discharge piping to replace present 22" and 16" discharge piping.

The proposed additions to facilities at Applicant's Bivins Compressor Station and Gasoline Plant are asserted to be required for the following reasons: The Bivins Compressor Station is the initial station on the main transmission pipe line of Canadian River Gas Company. It is vital to the continued operation of the pipe line and is not a peak-load station. The proposed additions are for the purpose of supplying a definite expected increased demand on Applicant's Denver line during the 1946-47 winter season.

No additional customers are expected to be served by Applicant as a result of the installation of the proposed facilities covered in this application. The sole stated purpose is to make certain that deliveries to Colorado Interstate Gas Company may be maintained on peak days.

Applicant estimates that total cost of all the proposed facilities will be \$554,397.00.

Applicant states that the proposed construction will be financed entirely by Applicant under the terms of a contract with Colorado Interstate Gas Company, an affiliate, dated January 3, 1928.

Any interested State Commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of Part 67 of the provisional rules of practice and regulations under the Natural Gas Act, as amended, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of Canadian River Gas Company should file with the Federal Power Commission, Washington 25, D. C. not later than fifteen days from the date of this publication, a petition or protest in accordance with the Commission's pro-

visional rules of practice and regulations under the Natural Gas Act.

NATIONAL GAS & ELECTRIC CORP. AND NATIONAL UTILITIES CO. OF MICHIGAN

NOTICE OF FILING AND NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 10th day of July A. D. 1946.

Notice is hereby given that National Gas & Electric Corporation ("National"), a registered holding company, and National Utilities Company of Michigan ("Michigan"), a gas utility company and a subsidiary of National, have filed a joint application-declaration pursuant to Sections 6, 7, and 12 of the Public Utility Holding Company Act of 1935 and Rules U-42, U-45 and U-50 thereunder. All interested persons are referred to said application-declaration, which is on file in the office of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

(1) National proposes to borrow, pursuant to a loan agreement, from Continental Illinois National Bank and Trust Company of Chicago, The Girard Trust Company of Philadelphia and The Continental Bank & Trust Company of New York an aggregate principal amount of \$2,100,000 at an interest rate of 1 3/4% per annum. The term of the proposed loan agreement is six months, and National will have the right to renew any unpaid balance for a further period of six months, subject to payment by National of a commitment fee of 1/4 of 1% of the amount so renewed. National will have the right to repay the loan at any time without premium. As collateral security for such loan, National will deliver to said banks all of the outstanding securities of two of its subsidiary companies, Michigan and Industrial Gas Company. The proceeds of such loan will be used to redeem National's First Lien Collateral Trust 5% Bonds presently outstanding in the principal amount of \$2,000,000 at the redemption price of 105% of principal amount plus accrued interest.

(2) National proposes to cancel \$583,500 principal amount of Michigan's First Mortgage 5% Bonds, presently outstanding in the principal amount of \$1,563,500,

thereby reducing the funded debt of Michigan to \$980,000 principal amount of First Mortgage 5% Bonds, all held by National.

(3) Michigan proposes to issue and sell \$980,000 principal amount of new First Mortgage Bonds, 3% Series A, due August 1, 1971, to The Mutual Life Insurance Company of New York at 100 and accrued interest from August 1, 1946. The proceeds from the sale of such new Bonds together with other corporate funds will be used by Michigan to redeem at 100% and accrued interest its First Mortgage Bonds to be outstanding after the bond cancellation by National above referred to. National proposes to apply the \$980,000 to be received by it from the redemption of Michigan's bonds toward the reduction of its \$2,100,000 bank loan. Michigan states that the Michigan Public Service Commission has jurisdiction over the issue and sale of its new First Mortgage Bonds.

It appearing to the Commission that it is appropriate in the public interest and in the interests of investors and consumers that a hearing be held with respect to said application-declaration, and that said application should not be granted nor said declaration permitted to become effective except pursuant to further order of this Commission;

It is hereby ordered, That a hearing on said application-declaration under the applicable provisions of the act and the rules and regulations of the Commission promulgated thereunder be held on July 23, 1946, at 10:00 a. m., e. d. s. t., at the office of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. It is requested that any person desiring to be heard in these proceedings shall file with the Secretary of this Commission on or before July 19, 1946, an appropriate request or application to be heard, as provided by Rule XVII of the Commission's rules of practice.

The officer so designated to preside at the hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

Notice is hereby given of said hearing to National, Michigan, the Michigan Public Service Commission, and to all interested persons, said notice to be given to National, Michigan, and the Michigan Public Service Commission by registered mail, and to all other persons by a general release of this Commission which shall be distributed to the press and mailed to all persons on the mailing list for releases issued under the Public Utility Holding Company Act of 1935 and by publication of this notice and order in the FEDERAL REGISTER.

It is further ordered, without limiting the scope of the issues presented by these proceedings, that particular attention be directed at the hearing to the following matters and questions:

(1) Whether the proposed issue and sale of notes by National meet the requirements of section 7 of the act;

(2) Whether the proposed issue and sale of new Bonds of Michigan are solely for the purpose of financing the business of Michigan and have been expressly authorized by the State Commission of the State in which it is organized and doing business;

(3) Whether the proposed redemption of Michigan's outstanding Bonds is detrimental to the public interest or the interest of investors;

(4) Whether in connection with the proposed bank loan of National and the proposed sale of securities by Michigan the fees and expenses to be paid are fair and reasonable and whether competitive conditions have been maintained;
